

SE2224 – Software System Analysis

Spring, 2022-2023

Assignment-7

Consider a web-based digital music download system which allows the customers to be able to search for and purchase legitimate digital music downloads. Draw the Level 0 Data Flow Diagram (DFD) of this system. Some example external entities can be *Customer*, *Payment/Bank*, etc., and some example processes can be *Search and Browse Music*, *Purchase Music*, etc.

Notes:

- This is an individual assignment (not a group assignment).
- Upload your assignment to Moodle in one of the **doc/docx/pdf** formats.
