

## SE2224 – Software System Analysis

Spring, 2022-2023

### Assignment-5 Part-2

#### Notes:

- This is an individual assignment.
  - Draw the Use Case diagrams that are required for this assignment with Visual Paradigm and put their images in your word/pdf file of your assignment. Submit your word/pdf file to Moodle.
1. Recall the example Holiday Travel Vehicles Sales System. Draw *a use case diagram* for this system. For each use case in your diagram prepare a *basic use case form* which does not include the normal course.
  2. A high-level UML Use Case Diagram for an Online Shopping System is shown below. Draw *a detailed use case diagram* for the Use Case “**Checkout**” only. How can it be extended and presented in more detail? Which use cases should this use case include/extend?
